Q: How to render Material UI Input with non-Flexbox field? I'm trying to run a Material UI Input with a non-Flexbox field but it's not working. Is this because of my browsers (Chrome, Firefox) or can I solve this in the code?

```
import React from "react"; import { Input } from "@material-ui/core"; import Grid from "@material-ui/core/Grid"; export default function newContainer() { return ( ); } A: These are the basics - import React, { Component } from "react"; import { Input } from "@material-ui/core"; export default class App extends Component { render() { return ( 570a42141b
```
