I am using doctrine 2. How do you add a custom text to a field in an entity? For example, I would like to add a 'Receive a discount' text to a field and have the discount applied to a particular entity. Is it possible? A: You could do that with a DQL-Query. Something like this: \$em = \$this->getDoctrine()->getEntityManager(); \$query = \$em->createQuery('SELECT o FROM Acme\UserBundle\Entity\User o WHERE o.address = :address'); \$query->setParameter('address', \$address); \$user = \$query->getSingleResult(); \$user->setAdditionalMessage('Message'); \$em->flush(); You should read the documentation for more examples of DQL-queries. `_LINUX_CFLAGS_GLIB || ARCH == "ARM" -print_instructions`
